He Is Eligible.

Mayor Tobin says that Mr. W. T. Flynn, a member of the Police and Fire Commission, is not eligible to hold the position because he is not a bona fide property holder. By the will of Mr. Flynn's father he was left a half interest in a house and lot on North St. Clair street, which interest he still holds and has never conveyed. If this does not secure him in his seat, Uncle Jim Wakefield has offered to deed him a lot on the sandbar next to the one which renders a member of the Council eligible to a seat in that body.

The first few days of the term was occupied in trying moonshiners and other violators of the internal revenue laws, but on Thursday morning the case of George Mastin, of Woodford county, against C. W. Williams, of Independence, Iowa, was taken up and is still before the court.

Williams is the owner of the trotting race course at Independence, where the race between Nancy Hanks and Allerton took place last September, and Mastin was a spectator at that race. A portion of the grand stand fell during the race and Mastin was injured. He sued Williams for \$25,000 damages. Some of the most prominent trotting horse men in the country are here as witnesses. Mastin is represented by Judge Wm. Lindsay, Hon. James Andrew Scott, of this city, and T. D. Edwards, of Versailles, and Williams by Gen. D. W. Lindsey, of this city, and E. E. Hasner, of Independence, Iowa.

The grand jury adjourned on Thursday after returning about thirty indictments, most of which were for violations of the internal revenue laws. Wm. Bright, late Cashier, and Frank Gilmore, late Teller, were indicted for embezzling the funds of the National Exchange Bank, of Lexington, and W. H. Cheppu, the bookmaker, who was a partner of Bright in a stock farm, was also indicted as an accessory. Frank Steele was indicted for intimidating a Government witness.

Remember the Poor.

Our citizens may not be aware of it, but there is a great deal of suffering among the poor people of the city and there should be some organized effort to relieve their wants. The cold weather, coming so soon upon the heels of the epidemic of grippe, has found many a family without fuel or even food in their homes.

Rev. E. A. Penick, whose card calling the attention of our people to the matter, appears in another column, informs us that he has constant applications for aid which he cannot grant for want of funds, and it is a well-known fact that the most worthy objects of charity are those who will not let their condition be known. The City Council should take the matter in hand or a public meeting be called and committees appointed to look up and supply the needs of our suffering poor.

The saw mills and other manufacturing of the city, which furnish employment to many worthy laborers, are not running; their hands are idle and many of their families are suffering for the necessities of life. Let the matter be taken in hand at once and a fund raised for the purpose.

The Shows that epidemic, contagious diseases are produced by minute infecting germs or microbes, peculiar to each disease, which enter the system. It being a well settled fact that any remedy which would kill the germ or microbe would destroy the life of the patient, it has been found that to force out the germs is the only safe relief from their ravages. In this way Swift's Specific has for 60 years been curing blood and skin diseases. It forces out the microbes through the pores of the skin, and soon sends out the poison which they have left. In this way the disease is cured, and the general health of the patient is built up.

Treatise on blood and skin diseases mailed free.
